

BANDAGES DISCARDED IN TREATING WOUNDED

New Successful Method of British Hospitals Reduces Suffering.

(By the International News Service.) London, Sept. 16.—Bandages are eliminated in the latest methods of healing obstinate wounds here. This is one of the marvelous developments of surgery to which the war has given impetus.

At Queen Alexandra's Military Hospital several patients were exhibited undergoing the new treatment. Two of these men were severely wounded in September, last year, and for ten months had been treated in the customary way without any sign of healing. On August 2 they were brought to this hospital, the bandages were flung away, the wounds were subjected to repeated applications of a stream of ozone being lightly covered with a loose layer of lint in the intervals, and in four days healing was in rapid progress.

This treatment is simplicity itself. Oxygen passes from a reservoir into an electrical machine, which converts it into ozone, the ozone flows out through a fine metal tube. The machine is wheeled close to the patient's bed, the wound uncovered, and a stream of the microbe-killing ozone flows into the deepest recesses. No painful dressing off of bandages, no rebandaging of the limb to hurt and exhaust the patient.

WAR FILM ENGAGED TO ASSIST CHARITY

Although last night marked the official closing of the moving pictures at the Pension Office for the benefit of the needy families of the militia on the border, J. Ayers, of the Interior Department, announced that one more film would be shown.

The Thompson war film which was recently exhibited at the Pension Office in the near future.

Notes of Camp Ordway

Company A was treated to a lively prize fight yesterday when Private C. S. Ryan tried to show Cook Sweeney how to run the kitchen. It was finally decided right in the kitchen that Sweeney had full jurisdiction, and that extra-territorial rights were not vested in Ryan. No one else ventured to claim any privileges around there now. After the combat the contestants shook hands and agreed to abide by the result of the battle.

Fred D. Christie, formerly a member of the Signal Corps, is the latest recruit to the cavalry troop.

General Harvey and Major Whitaker, while driving yesterday afternoon in General Harvey's automobile, had a collision with a street car. The auto was smashed around the hood, and an axle was broken, but the officers were not even scratched.

The prisoner who escaped from the guard tent Friday was captured last night and returned to camp under escort of a detail of nine soldiers. For his few hours of liberty he was allowed thirty days in the "brig" to think over his experiences.

Corp. J. A. Hawkins, of Company F, was left out of the big maneuvers. He joined the detail for the rifle range. Instead of the Second Battalion, and spent two nights in the camp on the range as a result of the "bone."

Religious services at the Y. M. C. A. tent last night were well attended. Rev. H. L. Stewart will conduct services tomorrow at the camp, with the assistance of Mr. and Mrs. Page McK. Etchison.

The entire Third Infantry and the Cavalry Troop marched on the Fort Myer drill field yesterday morning with full field equipment. They pitched their "pup" tents in streets, and stood before the tents while inspection by General Harvey and his field officers was under way. The appearance of the outfits would credit to trained army men, according to army officers.

BUSINESS GIRLS HITCH ON MILLIONAIRES' CARS

Models and Typists Overcome Strike Difficulties.

Special to The Washington Herald. New York, Sept. 16.—Do you belong to the Hitch Club? It really quite the latestfad, with 10,000 of Fifth avenue's prettiest cloak models and typists—that is, since the strike began. About fifty of the girls talked the "hitch" plan over in one of the office buildings near Thirty-fourth street just two weeks ago, and this resolution was formally adopted:

"Inasmuch as the present traffic strike presents insurmountable difficulties in getting to and from business on schedule time, we, the undersigned, subscribe to the opinion that 'hitching' rides shall be considered proper on all times and occasions."

And that is why hundreds of tired business men speeding home in autos are halted every afternoon on Fourth, Fifth and Madison avenues by fair pedestrians seeking free transportation.

It caused excitement on the big avenue the first day the scheme was tried out.

BLAST THROWS BODIES ON TELEGRAPH WIRES

(By the International News Service.) Pittsburgh, Pa., Sept. 16.—From the ruins of the wrecked plant of the Aetna Chemical Company at Oakdale, where an explosion of a "T. N. T." mixer occurred last night, searchers today took the mangled remains of twelve munition workers.

Another workman died at the hospital, bringing the death toll up to thirteen. Pieces of bodies hanging to telegraph wires, his of human flesh scattered for one hundred yards about the plant, hands and feet lying about, and parts of bodies turning up with every strike of the pick, were the gruesome sights encountered by the workers searching the ruins today.

The bits of bodies are being collected in a huge basket by an undertaker.

Nutshell News

According to Department of Commerce figures American shipping in foreign trade increased from 2,446,700 tons in 1915 to 2,594,070 tons on June 30, 1916. Nearly half of this tonnage, 1,230,000 tons, was in foreign trade.

The Treasury Department yesterday issued a call for statements of the conditions of national banks at the close of business on September 12.

Secretary Phillips of the American Embassy in Constantinople, yesterday reported to the State Department that Ambassador Abram L. Ellis and his party arrived there on September 11. All were well.

New bank discount rates on fifteen-day paper yesterday were established by the Federal Reserve Board as follows: Boston, 3 1/2 per cent; Kansas City, 4 per cent, and St. Louis, 3 per cent.

Col. James G. Capers, delegate from the Chamber of Commerce to the fifth annual convention of the Atlantic Eastern Waterways Association in Philadelphia, September 12 to 15, has returned to the city. Col. Capers delivered an address to the delegates on the second day.

President Mora and the secretary of the Chamber of Commerce are receiving enthusiastic support from all sides in the attempt to land the armor plant for the city. The merchants and business men generally welcome such work, and support it ardently.

The office of the Chamber of Commerce has been busy with the ticket and the office of the police, as well as with the plan. The Board of Trade office has cooperated heartily.

The sightseeing companies, Mount Vernon and others report one of the best summers in years. The mail of the Chamber of Commerce grows heavier each day with requests from prospective visitors needing hotel information.

William A. Gannon, sixty-eight years old, a veteran employe of the Pension Office, died at his residence, 430 M street northwest, yesterday. Funeral services will be held at the Mount Vernon Place M. E. Church, South, tomorrow at 10 o'clock. Interment will be in Arlington Cemetery.

A fund of \$300 has been raised for the benefit of the Hebrew war sufferers, through the efforts of the Women of the Hour, according to the reports made at the autumn meeting of the organization at the Elkhart Street Temple.

Report was received at police headquarters that Ella L. Price, colored, 4812 Fourteenth street northwest, had been robbed of a market basket containing two chickens, seven lamb chops and other delectable eatables.

S. W. Mehon, 338 S street northwest, notified the police that his wagon at Center Market had been robbed of sixteen quarts of lima beans, valued at \$2.50.

Claiming he desired to select a suit of clothes from samples, a white man yesterday took two design pamphlets from H. Miller, 1815 Connecticut avenue northwest. The books were valued at \$46.

Thomas Myers, 76 years old, United States Soldiers' Home, while visiting at 98 Lett's street southwest, fell down stairs yesterday evening in a room in which he later died. Myers was conveyed to Emergency Hospital in an ambulance, where every effort was made to save his life. The coroner was notified of his death.

The police have been asked to look out for Edward Ladgley, alias Bruce, colored, 22 years old, wanted by the Second precinct for alleged house breaking.

Miss Lella Lightfoot, of Culpeper, Va., stopping at 1219 Q street northwest, reported to the police yesterday that burglars had entered her home and stolen \$44 in bills from the bathroom.

J. Edgar Robinson, 1206 G street northwest, reported to the police that robbers entered his place of business and took \$23.51 from the cash register.

William Sager, 49 years old, of Oakland, Md., was taken ill in front of 3416 M street northwest. He was treated at Georgetown University Hospital, and later went home.

A dark-skinned colored woman entered the home of Mrs. Norman Leonard, 115 Quincy street northeast, yesterday, and stole a pocketbook containing \$8 in bills from the dining room table. The police are investigating the case, with a view of catching the sneak thief who has been making successful hauls for the past two weeks.

The Navy Department announced yesterday the arrival in Nicaraguan waters of the cruisers San Diego, at Fonseca Bay, and the Chattanooga at Corinto. An officer from the flagship San Diego was sent to Managua, Nicaragua, to communicate with the American Minister there and inquire as to the possibility of locating a naval base at Fonseca.

Political Notes

New York, Sept. 16.—It was regarded as practically certain today that President Woodrow Wilson would take the stump on at least one speaking tour in his own behalf.

The death of the President's sister, Mrs. Annie Howe, at New London, reported last night, had been holding President Wilson close to his home at Shadow Lawn, Long Branch, N. J., and it was said today at Democratic national headquarters here that Mr. Wilson now would feel free to take an active part in the campaign.

Vance C. McCormick, Democratic national chairman, will return to New York from the West tomorrow, and on Monday will hold a conference with President Wilson at the summer Capital.

After that, it was said by those at national headquarters, definite plans would be announced for the remainder of the Democratic campaign.

Pittsburgh, Pa., Sept. 16.—Democratic National Chairman Vance C. McCormick dropped into Pittsburgh today and painted a glowing picture of the progress of the cause of Woodrow Wilson in meeting in the Far and Middle West. Mr. McCormick was en route from Chicago to his home in Harrisburg.

Portland, Me., Sept. 16.—Well pleased over the enthusiastic meeting here last night—the biggest demonstration accorded them this far—J. Frank Hanly and Dr. J. L. Landrith, prohibition candidates continued their tour through Oregon today. The first stop scheduled for the day was at Salem, where both candidates were to speak.

Both Mr. Hanly and Dr. Landrith are law-abiding citizens, and are on the need of national, not State, legislation, to curb the liquor traffic.

The candidates spent the entire day in Oregon. Tomorrow they will enter California.

WOULD MAKE ORATORS OF "DUMMY" FIGURES

Boston Man Invents Aid for Campaign Speakers.

Special to The Washington Herald. Philadelphia, Sept. 16.—Politicians, lecturers, announcers, and other steam distillers will be busy with interest upon learning what Charles P. Price, of Boston, without so much as a hint of warning, has gone and done. Details of the accomplishments, arranged in the most technical and thoroughly unadaptable style possible were set forth in the official gazette of the United States Patent Office.

It appears likely, offhand, that Cicero will be referred to as a mule when Mr. Price sets up the appliance which has its Bostonese inception in the inventor's brain. The idea, if the invention contains one, is that a dummy figure equipped with a receiver located in its mechanical vitals is placed on a platform or stage, and a distant point of a transmitter is located and there any one having an opinion may state it through the dummy. How "Charlie" ever thought of this is something to consider, and even the casual geologist may hope that Mr. Price is paid in full.

Coming, as this world-rocking invention does, in a great national political campaign, its possibilities loom like a thimble.

How "Charlie" ever thought of this is something to consider, and even the casual geologist may hope that Mr. Price is paid in full.

Coming, as this world-rocking invention does, in a great national political campaign, its possibilities loom like a thimble.

BREAKS INTO SOCIETY WITH AID OF PISTOL

Two Who Would Bar Way Taken to Hospital.

Special to The Washington Herald. New York, Sept. 16.—William Brownson made an effort early today to break into the society circles of Upper Harlem over the protest of a large company which did not consider him of their set.

The casualties: Charles Howard, shot in the left cheek and taken to Harlem Hospital. John Hargrave, shot in left groin; taken to Harlem Hospital, where he may die.

It is the custom in police circles, at which the elite are received after the payment of a fee of 50 cents. Hargrave was the evening's host.

When Brownson presented himself and demanded admittance he was told that he could not enter. Brownson began shooting. After Howard was hit in the cheek, Hargrave came to the rescue and received a groin wound.

FRICK SEES LONG REIGN OF PROSPERITY IN U. S.

(By the International News Service.) Pittsburgh, Pa., Sept. 16.—Business men of this city today generally endorsed the views expressed by Henry Clay Frick, who declared in an interview here that prosperity would continue in this country.

Mr. Frick asserted that the domestic demand for steel and other industrial products made the outlook for national prosperity very bright.

He declared the claim that in certain quarters the war was responsible for prosperity in the United States.

"The present excessive prosperity may be dependent to some extent upon the war," he said, "but I believe that conditions will continue good. The financial, industrial and general situation is just splendid. We could not wish for better."

HIGHER PAY FOR MILK TO GO TO DAIRYMEN

Special to The Washington Herald. New York, Sept. 16.—Refusing to grant the demands of dairymen for one cent more a quart than at present, one of the big distributing companies announced in a statement that it would operate on the basis of 10 cents per quart.

Other big distributing companies supplying New York city will follow suit. According to State Commissioner of Foods and Markets Dillon, agent of the Dairymen's League, the up-state dairymen will not sign the contracts.

He said the big distributing companies will not get sufficient supply for their customers, which will make them go to Mr. Dillon's department for their milk at the producers' price.

"WE MEN MUST UNITE," CRIES CHICAGO CRITIC

Special to The Washington Herald. Chicago, Sept. 16.—"We men must stand together," said Wilbur F. Stone, music man and critic, today, while being asked for divorce. Mrs. Stone alleged cruelty and charged that her husband tried to introduce "Prussian efficiency" in their household.

"The women of the world, without a Masonic organization, have a stronger banded force than the men," said the critic. "Fifty years hence the men of this country and the world will have to arise and band themselves together to maintain their own rights."

A statistical person has figured the losses to agriculture as a result of depredations of insects and rodents as \$12 a year for each man, woman and child in the United States.

Free to Pile Sufferers
